I am writing in response to your letter dated October 17, 2025 and your follow up email on November 3, 2025 to Dorchester School District Two on behalf of Ms. Jamey Cronemeyer.

Although the District disputes certain facts, as presented in your previous letter, the District's position remains consistent with FERPA's provisions. Ms. Cronemeyer has been permitted and will continue to be offered the opportunity to inspect and review common assessments, including her student's individual responses, at the school site (34 C.F.R. § 99.10). To the extent that the District has maintained other records (quizzes and classroom assignments) the parent will be permitted to inspect and review or receive copies of those records—as is appropriate based on the level of confidentiality that must be maintained.

To date, the District has not received any additional requests from Ms. Cronemeyer to inspect and review common assessments. Specifically, the District is not aware of a request to inspect and review the Biology Honors common assessment. For clarity and to ensure a prompt and accurate response, should Ms. Cronemeyer wish to review her daughter's student records, she should email the teacher and school administration detailing her request in writing.

The District believes that it has fulfilled its obligations under FERPA and considers this matter resolved.

Sincerely,

/s/
Christy Graham
General Counsel
Dorchester School District Two

Cc:
Ashley Wimberly, Chair, Board of Trustees
Chad Daugherty, Superintendent
Katie Barker, Assistant Superintendent
Jamey Cronemeyer, Parent
